3:00—5:00 PM

SPACE SCIENCE CAREER EXPLORER WORKSHOP

FREE EVENT

for girls in grades 5-8

510 HERNDON PARK-
WAY, HERNDON, VA
20170, SUITE C

Thursday, April 21
3:00-5:00 pm

Girls in grades 5-8 are invited to a workshop to explore aerospace careers like astronaut, engineer, and astronomer. Participants will:

- **Test space missions** like a planetary scientist
- **Model the solar system** like an astronomer
- **Design a lander** like a mechanical engineer
- **Explore aerospace careers**
- **And more!**

Participants will receive the new, limited-edition "Your Place in Space: Career Explorer" patch, and participation is limited to 20 attendees. All supplies and the patch will be provided.

**LED BY ELIZABETH A.
BRADSHAW**

Elizabeth has written the book *Your Place in Space: A Career Guide for Girls* and is leading this workshop as part of her Girl Scout Gold Award project. Elizabeth is homeschooled and active in the Compass community. She is an Explainer at the National Air and Space Museum and a past NASA intern. She is a National Space Club and Foundation Scholar, and she will attend engineering school in the fall.

RSVP by April 18 by emailing YourPlaceinSpaceProgram@gmail.com

Please include the participant's and parent's names, a phone number, and an email address.
